

# Boones Ferry Rd and Arapaho Rd

## Project Description:

This project will enhance the safety of an existing crosswalk by adding a pedestrian-activated flashing beacon to the existing crosswalk across Boones Ferry Road, near Arapaho Rd. To improve lighting and visibility, the tree on the east side may be removed, and other vegetation may be trimmed. The project may also add lighting for pedestrians to this location.

**This project addresses**

*Neighborhood Safety*

- ✓ Flashing beacon increases likelihood drivers will yield to people waiting to cross
- ✓ Creates connection between neighborhood and Ibach Park and Woodrose Park

## Project Schedule:

**Planning and Outreach:** January - February 2021

**Design:** February - April 2021

**Construction:** Summer 2021

 TriMet Transit Stop
